ST. BLAISE feast day is February 3rd.

Saint Blaise, was a physician, and bishop of Sebastea in historical Armenia (modern Sivas, Turkey). Lived in a cave on Mount Argeus. Healer of men and animals; according to legend, sick animals would come to him on their own for help, but would never disturb him at prayer. Agricola, governor of Cappadocia, came to Sebaste to persecute Christians. His huntsmen went into the forests of Argeus to find wild animals for the arena games, and found many waiting outside Blaise's cave. Discovered in prayer, Blaise was arrested, and Agricola tried to get him to recant his faith. While in prison, Blaise ministered to and healed fellow prisoners, including saving a child who was choking on a fish bone; this led to the blessing of throats on Blaise's feast day.

Thrown into a lake to drown, Blaise stood on the surface

and invited his persecutors to walk out and prove the power of their gods; they drowned. When he returned to land, he was martyred by being beaten, his flesh torn with wool combs (which led to his association with and patronage of those involved in the wool trade), and then beheading.

In many places on the day of his feast the blessing of St. Blaise is given: two burning candles, blessed on the feast of the Presentation of the Lord ("candlemas"), are held in a crossed position by a priest over the heads of the faithful or the people are touched on the throat with them. At the same time the following blessing is given: "May Almighty God at the intercession of St. Blaise, Bishop and Martyr, preserve you from infections of the throat and from all other afflictions". Then the priest makes the sign of the cross over the faithful.
